WE WILL STRIKE IF WE HAVE TO

We have been in negotiations with LAUSD since February 2025. As a union we have presented a comprehensive package of proposals that addresses the needs of educators and students, including improvements in salary, staffing, and student supports.

LAUSD refuses to negotiate a fair agreement that addresses our critical needs, even though they are sitting on $5.03 billion in reserves.

While we will continue to try to reach an agreement, it looks like LAUSD will leave us with no other option but to strike.

If it is necessary, I will join my co-workers on strike and participate in school site picketing and rallies every day until we reach a fair agreement.
