

MARCH 15: UNITED FOR LA SCHOOLS

School/Chapter: _____

LAUSD has brought no legitimate bargaining proposals to the table through months of negotiations despite projecting reserves of \$4.9 billion for the end of 2022-2023 in their latest budget report to the county. There are no more excuses to hold the Beyond Recovery Platform hostage. Our demands address critical needs of educators, students, and community:

- Fully staff schools with nurses, librarians, counselors, social workers, psychologists, and more
- Reduce all class sizes
- Increase salaries to attract and keep great educators
- Fund Special Education and the Black Student Achievement Program
- Expand green spaces and create a plan for clean and healthy schools
- Expand Community Schools and provide resources for family/community/youth engagement and wrap-around services

Location: Grand Park (across from City Hall)

Time: 4:30PM

I will join UTLA and SEIU members from across LAUSD at the March 15 rally to demand that LAUSD settle a fair contract that meets these needs.
