

James Roguski is a researcher, author, natural health proponent and an activist who believes that the old systems are rightfully crumbling, so we must build their replacements quickly. In March 2022, James uncovered documents regarding proposed amendments to the *International Health Regulations* and was instrumental in raising awareness about them, which resulted in the amendments being rejected. James is now doing everything possible to expose the *World Health Organization's (WHO's)* hidden agenda behind their proposed "pandemic treaty" as well as the *WHO's* ongoing attempts to amend the *International Health Regulations*. James' vision for the future can be summarized by the phrase: "Out of the *WHO* and in with the NEW".

### **Summary:**

The *World Health Organization* is attempting a GLOBAL POWER GRAB by seeking to have the 194 member nations of the *World Health Assembly* a completely new international agreement commonly referred to as the proposed "*Pandemic Treaty*" in addition to seeking to adopt proposed amendments to the *International Health Regulations*.

The proposed "*Pandemic Treaty*" would give the WHO control over "pathogens with pandemic potential" as well as control over the means of production within the Pharmaceutical, Hospital, Emergency Industrial Complex. It is an absolute abomination that must be stopped.

The proposed amendments to the *International Health Regulations* would make the *WHO's* proclamations legally-binding rather than just advisory recommendations. The proposed amendments seek to institute global digital health certificates, dramatically increase the billions of dollars available to the *WHO* and enable nations to implement the regulations **WITHOUT respect for the dignity, human rights and fundamental freedoms of people.**

Agreement by a simple majority of the 194 member nations is all that is needed to adopt the amendments because, as amendments to an existing agreement, neither the advice and consent of the United States Senate, nor the signature of the President would be required.

These proposed amendments are being negotiated in secret without any opportunity for comment by people from around the world.
