

FIGHT FOR SCHOOLS **STOP** TRUMP & MUSK

RALLY AT SPACEX SATURDAY, MAY 17 @ 11 AM

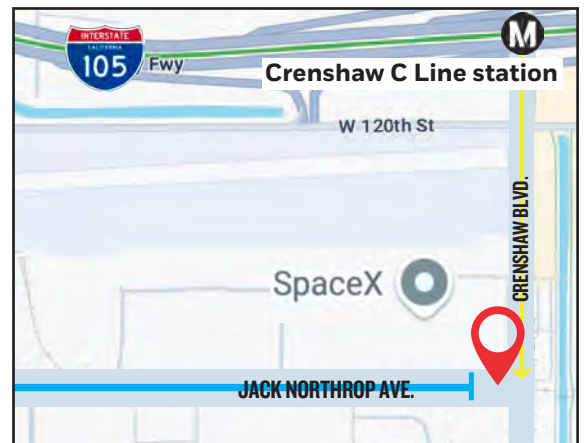

In their war against diversity and public education, **Donald Trump and Elon Musk are threatening to rob LAUSD students of \$1.2 billion of our own tax dollars** — federal money allocated for school lunches, Special Education services, and Title I programs that our most vulnerable students rely on. Trump and the richest man in the world, Elon Musk, are stealing food out of the mouths of children and resources from our schools.

At the same time, LAUSD is hoarding \$6.4 billion in reserves. We are ready to take on LAUSD if they attempt to hide behind Trump as an excuse to continue underpaying educators and underfunding student needs.

On May 17, educators take the fight to SpaceX — Musk's company that gets billions in tax breaks and private government contracts while Trump moves to starve out our schools. The rally connects with educator-led actions on the same day in Sacramento, San Francisco, Hanford, and San Diego.

We're building up a world and a vision through struggle and community. Let's rally together with good music, good food, and great people. Let's build the visual language of resistance with live interactive art, screen-printed protest posters, button making, and more.
