THE PLAN TO FIGHT CUTS & KEEP MOVING FORWARD

LAUSD'S PLAN: CUTS, NOT SOLUTIONS

$560 Million	**1,200+**
in 2027–28 cuts to positions, furlough days & employee healthcare costs	UTLA positions on the chopping block

Build a contract platform

LAUSD does not have a plan — just a list of cuts. The vision for moving our public schools forward will, as always, come from educators. Starting at the end of October, members at every chapter will meet to develop that vision and identify the widely and deeply felt issues to address in the next round of contract negotiations. We've shown over the last three contract campaigns that when we build power behind a united platform, they fold.

Organize for more state funding

More money from the state must be part of any solution. Like we mobilized this election season to get out the vote for Prop 3 permanent school funding, we will unite with union educators up and down the state to reclaim the $3.9 billion withheld from public education by Governor Newsom.

Stop LAUSD's reckless budget process

LAUSD is needlessly fast-tracking a destructive budget process without all the facts. The district is already preparing next year's school-site budget allocations for December 1 before state budget projections are released. UTLA members' collective actions have made the district walk back harmful decisions before. We have the power to push LAUSD to get the facts before creating chaos and disruption.
